

TAHOE TRANSPORTATION DISTRICT HIRES TYLER WOOD AS NEW CAPITAL PROJECTS MANAGER

Wood's expertise strengthens agency's capacity to deliver regional transportation solutions

August 25, 2025 (*Stateline, Nev.*) – The Tahoe Transportation District (TTD) welcomes Tyler Wood as its new Capital Projects Manager, bringing nearly two decades of civil engineering and project management experience in the Tahoe Basin to the agency.

Wood joins TTD following a 17-year career with the Nevada Department of Transportation, where he held positions in Right-of-Way, Roadway Design, and Stormwater, and most recently served as Project Coordinator specializing in Tahoe-area projects. In his new role, Wood will oversee the planning and delivery of major capital projects that improve mobility, enhance safety, and protect the Lake Tahoe environment.

“Tyler’s expertise in Tahoe-specific infrastructure projects and his proven leadership in project delivery will strengthen TTD’s capacity to meet the region’s evolving transportation needs,” said Jim Marino, Executive Director of the Tahoe Transportation District. “His experience and commitment to this community align with our mission to deliver projects that improve mobility, enhance safety, and protect Lake Tahoe’s unique environment.”

In addition to his professional experience, Wood is a U.S. Army veteran who served with the Nevada National Guard and was deployed to Afghanistan as a member of the Zabul Provincial Reconstruction Team. He is also an active community volunteer, serving as a trails coordinator with Muscle Powered and as a coach for the Carson City Senators National Interscholastic Cycling Association (NICA) race team.

“It’s a pivotal time for regional transportation,” said Wood. “I look forward to contributing my experience to advance projects that support both accessibility and environmental stewardship, while working collaboratively with our partners and communities to deliver long-term benefits for the Tahoe Basin.”

TTD remains committed to advancing transportation initiatives that balance improved mobility with environmental protection and long-term regional sustainability. Wood’s addition to the team

FOR IMMEDIATE RELEASE

supports the District's ongoing commitment to addressing the unique challenges of transportation in the Tahoe Basin.

About Tahoe Transportation District

The Tahoe Transportation District (TTD) is a bi-state agency responsible for the management and implementation of safe, environmentally sound, multi-modal transportation projects and programs in the Lake Tahoe Region, including transit operations. TTD leads multi-jurisdictional infrastructure projects to make travel safer, improve access to recreation, and reduce traffic congestion and private car use. TTD focuses on transit's pivotal role in improving air and water quality because more than 70 percent of the pollutants impacting Lake Tahoe's clarity come from transportation system and built environment run-off. TTD has delivered numerous projects to help reduce environmental impacts and address the high demand residents and visitors place on the region's transportation infrastructure, including transit solutions, roadway and safety enhancements, water quality improvements, and pedestrian/cyclist paths.
